In response to applicant's remarks dated March 06, 2007. The following action is taken:

The claims are rejected for the same reasons set forth in the previous office action repeated herein.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 3-113725.

Applicant's attention is drawn to fig 5 showing an optical pick up comprising: a plate 13/15 provided with photo detectors 11, a plurality of through holes formed on the plate 13a and 13b, an optical bench 15/45, wherein in fig 5 shows the use of an adhesive 16a, 16b, 46b/46c formed in the hole in order to maintain a gap between the plate and the bench as illustrated in fig 5 meeting the claimed invention.

With respect to the limitations of claims 3 and 5 see holes 13a and 13b having a circular shape.

With respect to the limitation of claim 4 see fig 5 having an adhesive injected from a top position with respect to the hole in order to maintain a gap between the plate and the bench.

Applicant's arguments filed March 06, 2007 have been fully considered but they are not persuasive. Applicant's attention is drawn to fig 5 of the reference showing a gap between and supporting elements 43 and 45 due to the adhesive into a hole elements 45a, 45b, 46a, 46b, 43a and 43b meeting the gap limitation of the claimed invention. As for the limitation of the adhesive reading the upper surface. Applicant's attention is drawn to fig 5 showing the adhesive reaching the upper surface of element 43.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication should be directed to NABIL Z. HINDI at telephone number (571) 272-7618.
